MEETING NOTICE.

ADJOURNED meeting of the stockholders of the In- day. Heart disease is supposed to have ter-Island Steam Navigation Co., Ltd., been the cause. will be held at the office of the company. Queen street, on Monday, March San Francisco today, has 3.591 tons of merchandise aboard for the Coast.

HE drop in the price of sugar to four cents per pound, which news was received by the last steamer from the Coast, has caused no uneasiness among the sugar buyers in the City. They are all aware that this is but a temorary price and that it will only be a matter of a short time when sugar will have returned to its old quotation. The San Francisco markets have not been so brisk since the assessment of \$10 per share on the Oceanic Steamship Company stock, which caused that stock to dop from a great height.

The local market showed a healthy condition throughout the week, several stocks being quite stirring at the close of yesterday's business. Among the sugars, Ewa has been active, stock selling in large and small quantities at 28. seems to be the consensus of opinion now that Ewa will not increase its divi-dends until the latter part of the year, if it does so at that time. Sales of Hawalian Agricultural were made during the week at 305. Eighty Hawaiian Commercial and Sugar Company during the forepart of the week, closing yesterday at 80 asked. Hawalian Sugar sold at 42, closing with sales at 42. Honomu is 165 bid. Onomea is 30 bid, no sales. Ookala sold readily at 19. Oahu advanced from 160 to 165. Walalua sold as low as 1174 and closed yesterday at sales at 11914. There was a bid of 170 for Waimanalo during the week, he bids closing at 165. Waimea is 100 asked; Haiku 240 asked.

Among the mercantile stocks shares in the firm of C. Brewer and Company were transferred at \$415 per share. A few shares of Sachs and Company, sold at par, 105 asked. Among the bank stocks, First National is 110 asked. There was a fairly good sale of bonds at times during the week. Oanu Rallway readily sold at 103. Hilo Rallway, 101 asked. Ewa, 101 bid. rive on the steamship Hawailan from New York via the Horn on or about April The stonework will arrive from San Francisco about the same date. BIG IMPROVEMENTS TO BE MADE IN THE HAWAIIAN HOTEL,

Extensive improvements are pending for the Hawaiian Hotel and its premises, which will make the hostelry quite up to date. Architect O. G. Traphagin has completed plans for a two-story annex to the hotel, to front on Ala kea street, containing in all twenty-nine rooms, mostly en suite, and each hav-ing a private bath, with plumbing of the safest type. The architecture is in harwith the other cottage additions to the hostelry with classic treatment, but the finishings will be on a much more elaborate scale. The building will be arcaded at the lower story to allow for a driveway from Alakea street to the hotel, as formerly. It will be arranged around three sides of a court with bal-conies overlooking the same, communicating at their ends with a circular staircase pavillon or klosk, which gives access from both stories to the balconies and the floor of the dining lanal of the main hotel building. Below the klosk will be lavatories and showers. The drive-way is arranged to come from Alakea street through the court yard, passing out in front of the main hotel building. The suites facing on Alakea street have their private lanais. Beyond this Mr. Macfarlane has asked for plans to add two more stories on the hotel proper, to alizing that the hotel must be made to meet the requirements and demands of increasing travel. This will make the Hawaiian equal to the pressure arising from heavy passenger arrivals, both transient and permanent. ARCHITECT TRAPHAGEN RECEIVES A MERITORIOUS APPOINTMENT

O. G. Traphagen, the well-known architect, who got out the plans for the magnificent Moana Hotel, the Hackfeld building, and other modern structures in Honolulu, has been appointed local architect for the Alexander Young building. He will carry out the plans of the San Francisco architects of the struct-

MENDONCA TO BUILD AN IMMENSE BRICK STORE STRUCTURE. Tenders are being received by Architect Traphagen for building a two-story brick store building fronting on Hotel, Smith and Maunakea streets in the old burned district. J. P. Mendonca will erect the building.

COLLEGE HILLS LOTS WILL BE AUCTIONED OFF TODAY. One of the largest sales of residence ground held in Honolulu for the past above Rocky Hill, Manoa valley, with Auctioneer Morgan on the platform. The area covered by the lots to be so sold is estimated to be worth a quarter of a million dollars, and is probably the choicest of residence property in the City. The sale will include 240 lots containing every variety of elevated and rolling ground, interspersed with numerous small hills, which give the name to the suburb. By this means Oahu College sells direct to the future home-builder without any middle man's profit counted off. A large number of people will be at the sale, as it is practically the first opportunity the public has had of buying Manoa valley property under such circumstances,

M'BRYDE HOLDS IT ANNUAL MEETING. McBryde Sugar Company stockholders held their annual meeting yesterday morning at the Chamber of Commerce, and elected officers for the ensuing year. The treasurer's report, which was adopted, showed the following facts: Resources and liabilities each of \$3,788,155.62. Included in the resources are growing came valued at \$592,083.47, and treasury stock valued at \$51,400. In the Habilities are included \$698,519, the proceeds of the sale of \$700,000 of the company's bonds. The expenditures for permanent improvements during the year \$771,122.18. The operating expenses were \$445,686.14. The earnings included \$133,255,-

47 from the sale of 1,752 tons of sugar.

Manager Conant gave the following statements relative to crops: "Our present crop, now being ground, is estimated to yield 3,500 tons. We plan to plant a crop this coming year that with ratoons will net 18,000 tons." Of the water supply the report says: "To sum up, then, on the water question, we have a pumping capacity of 27,000,000 gallons and an additional flow of mountain water available by gravity for our cane fields of five to ten million gallons daily, according to the season of the year, and in addition an enormous amount of flood water available for use by the development of adequate reservoir capacity. The reservoirs thus far constructed on the plantation and capable of holding 310,000,000 gallons, have cost the company \$23,513.30 for their construction, and quickly paid

for themselves in the saving of coal alone.' W. A. Kinney, one of the promoters of McBryde, stated at the meeting that William Stoddart had succeeded Mr. Conant as manager of the plantation. The great value of the plantation, he said, made it necessary to have a high-class engineer, and the change would occur for this reason, and he desired to make the statement in order that no injustice would be done to Mr. Conant. They had found him a hard-working, practical man but not an engineer.
